

Together for Sustainability

Chemical Initiative for Sustainable Supply Chains

Data Sharing Agreement

Together for Sustainability (TfS) is a sustainability initiative founded in 2011 by multinational chemical companies that strive for a sustainable development and support the principles of the United Nations Global Compact and Responsible Care. Please refer to www.tfs-initiative.com for further information about the TfS Initiative.

By sharing sustainability audit data of suppliers, the members of TfS want to maximize the value of information for suppliers and buyers. In order to reduce the burden of multiple audit requests for information regarding your company's sustainability performance, we ask you for permission to share your sustainability audit report with all the current and future members of TfS. For the list of current TfS members please visit <https://tfs-initiative.com/current-members/>. The reports will be shared with the TfS members via a secure, shared platform.

Before signing the form, please read our [privacy notice](#).

Please fill out the supplier details and sign the form to confirm your agreement to share your data.
